EXPERIENCE

Full Stack Developer

Deloitte

Dec 2022 - Ongoing
Italy (remote)

- Working on the implementation, development, and design of a B2B e-commerce website for an important client with over 100k global users.
- Developed and designed over 16 landing pages in 6 months, for a total of 54+ fully responsive and re-usable front-end components, an improvement from the client's previous website.
- Collaborating in the development and testing of 100+ back-end classes, ensuring 100% code coverage for over 95% of them, in accordance with company standards and best practices.

TECH STACK: JavaScript | HTML | CSS | Apex | SQL | LWC | GitHub | Azure DevOps | Salesforce | UX/UI

Junior Salesforce Developer

Salesforce Industries

Apr 2022 – Jul 2022
Italy (remote)

- Worked on the configuration, deployment, and maintenance of Salesforce Components and metadata across multiple development environments for a variety of projects.
- Consistently worked with APIs and internal tools in documenting, testing, and debugging JSON data and responses (including Unit/System Tests, error handling and bug fixes).
- Created technical documents for internal use to aid both new developers and existing ones.

TECH STACK: Apex | SQL | JSON | GitHub | Jenkins | Postman | Salesforce | Relational Databases

IT Support Engineer Intern

Amazon

Mar 2021 – May 2021
Passo Corese (RI), Italy

- Took initiative in developing a more user-friendly front-end interface (using HTML, CSS, and JS) for 2 existing internal tools, speeding up tools' usage time by 35%.
